Many children in Sweden have insurance cover through their preschool or school. But in many municipalities in Sweden the insurance only covers accidents. In some cases the municipal insurance is only valid if the accident occurs during school hours or on the way to or from school. Our child insurance provides cover 24 hours a day and includes compensation for both illness and accident.

Who is insured under the policy?

The insurance covers the child listed in the certificate of insurance. The child must be a resident in Sweden and listed in the Swedish national population register. Compensation is paid to the child if he or she has reached the age of 18, with some exceptions. If the child is not yet 18, the compensation may in some cases be paid to either the parent or guardian or into a locked account from which the guardians need approval from the supervisory body at the local authority (Överförmyndarnämnden i kommunen) to make a withdrawal.

The insurance can be purchased for children who are 0-17 years old. The insurance remains valid until the end of the annual term on or following the child's 25th birthday.

Where does the policy provide cover?

The policy provides cover throughout the world, with certain limitations. If you are staying outside the Nordic countries, you are not covered for hospitalization, dental injury or travel and treatment costs. The insurance provides cover for occasional stays abroad of up to 12 months. You must inform If if you intend to spend more than 12 months abroad or if you are

emigrating from Sweden. If you do not inform If, your insurance cover will end on the day you leave Sweden. In certain cases, If can provide insurance cover during stays abroad.

When does the policy provide cover?

The insurance provides cover 24 hours a day. If's liability begins at the earliest the day after an insurance policy is taken out. In order to take out a child insurance you must submit a health declaration form, and the form must be approved by If.

What is insured?

The insurance applies to the items described in the table.

SUM INSURED

You can choose from five insurance sums: SEK 500,000, 1,000,000, 1,500,000, 2,000,000 or 2,500,000. The choice of the sum insured affects the amount of compensation in the case of medical disability, financial disability, scarring, incident insurance, travel and treatment costs and dental injury.

MEDICAL DISABILITY (PERMANENT INJURY)

If the child suffers an illness or accidental injury that leads to medical disability, we pay disability compensation. Medical disability is a permanent reduction in physical or mental bodily function. The reduction is measured as a percentage and is assessed by a table that is used by all insurance companies. The compensation that the child receives is the percentage of the sum insured that corresponds to the degree of medical disability. If the medical disability is at least 20%, we pay enhanced compensation. The choice of the sum insured affects the amount of compensation.

SCARRING

Compensation for scarring is paid according to a table drawn up by If. The assessment standard applied by the Road Traffic Injuries Commission is used to determine how conspicuous the scarring is. The compensation that is paid depends on the extent of the scarring, your age and the sum insured you have chosen.

A requirement for the payment of compensation is that the scarring has been caused by an illness or accident covered by the insurance that needed treatment from a hospital/healthcare centre or other medical care provider with an obligation to keep patient records.

FINANCIAL DISABILITY (LOSS OF ABILITY TO WORK)

Financial disability applies if the child becomes so injured or so seriously ill that his or her future ability to work is reduced by at least 50%. A requirement is that the illness or accidental injury also entitles the child to compensation for medical disability from this insurance. Compensation for financial disability is paid when all possibilities for work training and rehabilitation have been investigated. The choice of the sum insured affects the amount of compensation.

DENTAL INJURY, TRAVEL AND TREATMENT COSTS

If the child suffers an accident, we compensate the costs of medical and dental appointments, as well as travel costs caused by the accident. The choice of the sum insured affects the amount of compensation.

INCIDENT INSURANCE

We pay a lump sum if the child suffers an accident resulting in serious fracture, serious eye injury, ruptured Achilles' tendon or at least 2nd degree burns. The compensation is 0.5% of the sum insured for medical disability. The choice of the sum insured affects the amount of compensation.

ACUTE COMPENSATION

We pay a one time compensation of SEK 600 if the child is acutely admitted to hospital over night following an illness or accident.

HOSPITALIZATION

If the child needs care as a hospital in-patient, we pay SEK 600 per day for up to 365 days.

HOME CARE

If, after a period as a hospital in-patient, the child needs continuing care at home for at least 10 days, the insurance pays up to SEK 600 per day for up to 30 days. The right to compensation ceases when reaching the age of 16.

CARE COMPENSATION, PERIODIC ILLNESS COMPENSATION

If the child is ill for a long period or suffers some form of functional disability, the family may receive a care allowance or temporary parents' allowance for care of a seriously ill child from the Swedish Social Insurance Agency (Försäkringskassan). Care compensation from the child insurance is a supplement to the care compensation from the Swedish Social Insurance Agency. The insurance pays up to SEK 9 600 per month, depending on the amount of the care allowance being paid. From the age of 18, periodic illness compensation may be paid if the illness or accidental injury means that the ability to work is reduced by at least 50% for 90 consecutive days. In such a case, compensation is paid from the 91st day.

REHABILITATION AND PRACTICAL AIDS

If, after illness or accident, the child is affected by such a severe disability that the assistance of medical and practical measures is needed, the insurance may pay the cost of these. These may include adaptation of a car or residence, protection from mites, rehabilitation treatment and aids for improving functional ability. The maximum compensation is SEK 225,000.

FINANCIAL FIRST AID

If your child suffers a serious illness, you receive a lump sum to be used for any purpose you wish.

The amount of compensation is SEK 150,000, which is paid to the parent or guardian after a diagnosis has been confirmed by a doctor. The diagnoses for which compensation is paid include cancer, benign brain tumour, multiple sclerosis, serious brain damage, paediatric rheumatism and kidney failure. Certain mental illnesses and syndromes and neuropsychological impairment (F00-F99), such as anxiety, personality disorders, eating disorders, ADHD and autism spectrum disorder are also covered. The diagnosis must be made by a specialist or BUP, the children's and young persons' psychiatry service. Compensation is paid in relation to the amount of care benefit. To qualify for compensation for diagnoses F00-99 you have to be entitled to care benefits from Försäkringskassan, "care allowance" (omvårdnadsbidrag) or "temporary parents' allowance for care of a seriously ill child" (tillfällig föräldrapenning för vård av allvarligt sjukt barn). The later has to be approved for six months. From the age of 18, there is a right to compensation if the loss of working ability is at least 50% for a consecutive period of 180 days. Compensation is paid in relation to the degree of loss of working ability.

CRISIS THERAPY

We provide crisis therapy if the child suffers from a crisis reaction as a result of the death of a close family member, bullying or an accident or illness covered by the insurance.

The insurance also includes crisis therapy for close family members if they suffer from a crisis reaction due to the child deceasing or the child suffering from an illness or accident covered by the insurance.

CONTINUATION INSURANCE

When the insurance cover ceases by the end of the annual term on or following the child's 25th birthday the policy is converted to an illness and accident insurance, unless otherwise is stated in the insurance certificate.

DEATH

In the event of death the insurance pays a lump sum compensation of SEK 50,000.

Payment made easy

You choose the means of payment and the instalment period that suits you best: annual, six-monthly or monthly.

If you choose to receive printed invoices, there is an additional invoicing charge of SEK 25 per invoice. There is no additional invoicing charge if you pay by e-invoice through your internet bank or by Autogiro (direct debit).

When you have purchased the insurance

As soon as the purchase is complete, we send you the insurance certificate and other documents. Remember to check that the information in the insurance certificate is correct. The insurance is valid for one (1) year at a time, but is renewed automatically in good time. You can cancel your policy verbally or in writing at any time during the insurance period.
